ACADEMY

- ▶ Canary Football Academy was born with the purpose of creating in Gran Canaria, the place with the best climate in the world, a high performance residential academy for soccer players of all ages from all over the world.
- ▶ Our mission is to train young talents so that they can achieve their dream of being able to play in professional leagues around the world. The project is developed in our first class facilities with constant and daily high level trainings. The methodology we follow will focus on the development of the individual technique of each footballer, this technique being characteristic of the numerous Canarian footballers who have become professional players using the world known "Tiki Taka".
- ▶ All our players will train collectively with different well known teams from Gran Canaria of 1st, 2nd and 3rd divisions and thus will be able to know the first hand experience of competing in a high intensive Spanish club.
- ▶ The Environment of Gran Canaria, safe and warm throughout the year, makes it a perfect place that brings together all the necessary characteristics for the development of the player.
- ▶ Our most highlight service is our partnership with a major of top European clubs around the world, an agreement that will allow our players to train at their facilities and the opportunity to be seen by them. In this way the player is offered the possibility of getting to try in other leagues and other countries.
- ▶ Our vision is that all the players who have been training with Canary Football Academy have the access to play in professional and semi profesional clubs and dedicate themselves to soccer after having reached their maximum performance in our academy.
